

SPACE INVADER GAME - DIFFICULT

Purpose: Memorize the location of the colored squares representing the space invader for 1 minute, then hide the grid and reproduce the alien on a blank grid (several blank grids are available on page 2 of this document), then check your answer.

Tip: Look carefully at the shape as a whole and then observe its symmetry, its position on the grid (count the squares that space it from the edge), this will help you remember more easily!
